create global impact.

## Interested in becoming an Actuarial Intern with Munich Re?

### What's it like working as an Actuarial Intern?

Aside from being a great place to work, we have a special place in our hearts for mentoring and growing emerging talent. Students who intern with us, can expect an enormous amount of support which includes the following.

#### > Munich Re Experience

Whether it's cheering on your favorite team (Go Yankees!), NY Aquarium, ONE Vanderbilt, or Broadway Shows, we embrace opportunities to have fun and network! You and your peers will participate in our flagship intern event once per term.

#### > Intern Connections

We offer a variety of interactive training workshops tailored specifically to students, including interacting with senior leaders, to encourage cross-functional learning and help you grow your knowledge while supporting your professional development.

#### > Meaningful work

When you join us as an intern, you're not just a student, you're part of our team! You'll receive ongoing support from your manager and the broader team, while working on relevant and innovative projects, and meaningful work in a hybrid environment. Not to mention, you'll look forward to our town halls, holiday parties and seasonal celebrations; making you truly feel a part of it all!

#### > Hybrid work

A lot has changed since the pandemic, and we realize most people love connecting with their team while in-office, but they also enjoy the flexibility of working from home. That's why we offer a flex schedule where team members are in the office three days a week with the opportunity to work remotely the other two days. We provide each student a full workfrom-home setup, and at the end of your work term, as a little perk, you even get to keep your monitor!

### Why we want to hire you as an intern:

You demonstrate the constant need for achievement, a strong work ethic, and the drive to make a difference. You are also an excellent communicator and thrive working in a high-performing environment with a desire to make an impact. You are a quick learner, synthesize and implement technical solutions, and explain technically challenging concepts to other teams and business stakeholders.

### Learn more about us:

Munich Re Life US' track record as one of the world's leading reinsurance companies is based on a solid capital foundation, in-depth risk expertise and market know-how. Our data, technology, and teams place us in a unique position to lead the change in redefining the nature and impact of reinsurance for the future. We invest strategically in our world class talent, offering our employees a work experience that promotes professional development, innovation, and rewards high performance.
